

Job Title: Analyst
Location City: Gurgaon (New Delhi National Capital Region)
Industry: Research, Consulting and Advisory Services
Company: Everest Group

Company Description

Everest Group is an advisor to business leaders on global services with a worldwide reputation for helping Global 1000 firms dramatically improve their performance by optimizing their back- and middle-office business services. With a fact-based approach driving outcomes, Everest Group counsels organizations with complex challenges related to the use and delivery of global services in their pursuits to balance short-term needs with long-term goals. Through its practical consulting, original research and industry resource services, Everest Group helps clients maximize value from internal transformations, shared services, outsourcing and blended model strategies. Established in 1991, Everest Group serves users of global services, providers of services, country organizations and private equity firms, in six continents across all industry categories. Job overview

The IT Services team delivers in-depth research and insights on key trends across the demand-supply landscape in areas such as cloud & infrastructure, applications, and digital services. It also focuses on certain vertical technology clusters such as the banking, financial services, and insurance (BFSI) and healthcare IT services. The Analyst is expected to drive actionable insights on the relevant market segments through a combination of primary and secondary research to create research reports for Everest Group's subscription research in these markets. The candidate will also be required to deliver custom research engagements in this arena.

Key responsibilities

- Work closely with colleagues within as well as external to the practice, and SMEs to collect relevant information
- Lead market interactions to further the brand, lead engagements, and service provider evaluations.
- Support the practice while working on client engagements, developing syndicated reports as well as internal & external business development efforts
- Support in gathering, structuring and storage of relevant subject area information
- Help to structure agenda for subject area of team focus. Includes:
 - Identify priority areas and areas of interest
 - Suggesting processes for filling any data or analysis gaps
 - Help team manage deadlines
 - Assist with problem structuring

Everest Group is an equal opportunity employer. We have a culture of inclusion, and we provide equal opportunities for all applicants and employees, including those with disabilities. We are committed to providing an environment that is free of all discrimination and harassment and to treating all individuals with respect.

- Begin to own select work streams for project deliverables
- Ensure quality of products
- Proactively develop new content and depth of insight regarding your work streams

Skills and Activities
